Raptor[®] and The “I Love U Guys” Foundation[®] a Together Reunification

The Ultimate Reunification Training Program for K12 Schools

What is it?

The Together Reunification Exercise (T-REX) training program combines the expertise of the Standard Reunification Method creators with Raptor Student Reunification technology. This joint training includes specialists from Raptor Technologies and the “I Love U Guys” Foundation and is designed to equip schools with the skills and knowledge to successfully carry out accountable reunifications.

The T-REX program combines The “I Love U Guys” Foundation’s widely adopted Standard Response Protocol™ (SRP) and Standard Reunification Method™ (SRM) with the patented Reunification software from Raptor—which is aligned with and licensed by the Foundation. Together, we offer a fully integrated training program for K12 schools, leveraging both methodologies and software applications.

Why does it matter?

One of the most intimidating aspects of emergency planning and preparedness is reunification. Since there are any number of reasons a school building may become unsafe, it’s not a question of if, but when, you will need to enact your reunification plan. So, let’s do this... together.

As leading providers of crisis response and school safety software, our partnership aims to integrate our best-in-class methodologies and software offerings to provide schools with the tools they need to learn, practice and perform accountable reunifications.

Two Days & Two Trainers

T-REx is a two-day training program that combines The “I Love U Guys” Foundation’s popular Standard Reunification Method - Reunification Exercise (SRM-REx) program using traditional paper and pencil, with supporting content and technology-based exercises provided by Raptor.

The curriculum is developed and presented jointly by trainers from each organization, so participants will have access to specialists in both methodology and technology as well as documentation they can use for follow-up exercises and ongoing reference.

The T-REx training program is designed to include school district administrators and safety teams as well as first responders and local emergency agencies.

“Raptor’s partnership with the, “I LOVE U Guys” Foundation is an excellent, seamless way to present and practice our school safety plans.”

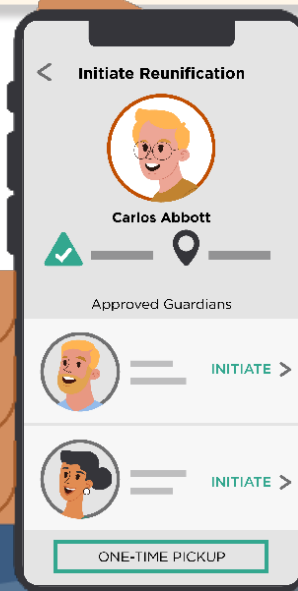

WA-NEE COMMUNITY SCHOOLS, IN

Day 1 - Agenda

Intros & Overview	Raptor Login
SRP Classroom	SRM Case Studies
